FUTURE PROOF LABS

Future-Proof Labs is yet another remarkable initiative of Techno India Group, undertaken by the visionary Chairman, Prof. Goutam RoyChowdhury. The main idea behind this initiative is to act as an enabler for converting the brightest ideas into reality. Therefore, contributing to the entire ecosystem by producing outstanding entrepreneurs.

THE FUTURE-PROOF HACKATHON

The Future-Proof Hackathon is a unique virtual event to be organized by Techno India Group in order to identify some of the most innovative tech-ideas that would thrive in the post-COVID-19 world. It is an intensive 50-hour virtual event inviting anyone to participate - both institutional teams(students from the same higher education institute) and non-institutional teams (mixed student and non-student individuals). Each participating team has to select any one topic/domain out of the 10 available options and proceed accordingly.

- **Institutional Participants:** Student teams reporting to their own institution.
- **Non-Institutional Participants:** Mixed student teams and non-student teams with participants of diverse backgrounds, age and level of experience.

MEET OUR CHIEF CURATORS!

Meghdut RoyChowdhury
Director, Global Operations
Techno India Group

Pauline Laravoire
Director of Sustainability
Techno India Group

INSTITUTIONAL PARTICIPANTS

Student teams reporting to their own institution can register and participate under the institutional portal of FPH2020. Every participating institution has to assign a Lead Coordinator who would be the Single-Point-of-Contact between the FPH2020 organizers and the institution. For more information, please refer to the following documents.

2. *Lead Coordinator Registration Form* (<https://forms.gle/ffGrXboFmN8AVDm7A>)
3. *FAQs for Institutional Teams* (<https://drive.google.com/file/d/14DD1m77mrbtvfNI-phGPrQCpAJwgiWlw/view?usp=sharing>)
4. *Institutional Team Registration Form* (<https://forms.gle/NXkqsD1xa5MBni9C9>)

NON-INSTITUTIONAL PARTICIPANTS

Any team will be treated as a non-institutional team if the following criteria is satisfied:

1. Student teams that include students from different institutes.
2. Teams that include student and non-student members.
3. Teams including no students.
